SUMMARY

Data Scientist and AI Trainer with 1+ year of experience delivering training in Python, SQL, Machine Learning, NLP, and Power BI. Skilled in building AI and data science projects using Python, LangChain, LangGraph, Google Gemini, and Streamlit. Hands-on experience developing Agentic AI and LLM-based applications, including workflow automation and intelligent assistants. Passionate about applying Machine Learning and modern AI technologies to solve real-world problems while continuously expanding expertise in Agentic AI and Retrieval-Augmented Generation (RAG).

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Data Scientist, Softroniics, Ernakulam, India **May 2025 — Present**

- Delivered instructor-led training in Python, SQL, Machine Learning, Deep Learning, Power BI, and Natural Language Processing (NLP) to over 1000 students.
- Designed and developed hands-on Data Science and AI projects to enhance practical learning and problem-solving skills.
- Performed data preprocessing, feature engineering, exploratory data analysis (EDA), and model evaluation using real-world datasets.
- Built demonstration applications using Python, Streamlit, LangChain, LangGraph, and Google Gemini to introduce modern AI concepts.
- Mentored students through project development, coding best practices, and technical interview preparation.
- Conducted code reviews, mock interviews, and technical sessions to improve learners' industry readiness.

Data Science and Gen Ai Intern, Innomatics Research Labs, India (Remote) **Sep 2024 — Dec 2024**

- Performed data preprocessing, feature selection, and model training on real-world datasets.
- Built and tuned machine learning models to improve prediction performance and Generated evaluation reports and visualizations to communicate insights.

EDUCATION

Bethlehem Institute of Engineering, **Kanniyakumari, India** - *B.E., Computer Science and Engineering - (GPA: 7.3)* **Jan 2021 — May 2025**

B.E. Computer Science and Engineering, Bethlehem Institute of Engineering — 2025, GPA 7.3

CERTIFICATIONS

Data Science and Ai (6Months), AVODHA EDUTECH PVT LTD **Jan 2024**

SQL Certification Course — Oracle, Oracle **Jan 2024**

Oracle Cloud Infrastructure Certified, Oracle **Jan 2023**

Additional training: Front End Development Libraries; Responsive Web Design; Foundations Associate; Soft Skill Development Program

DATA SCIENCE PROJECTS

AI Office Assistant using Agentic AI

- Developed an **Agentic AI-powered Office Assistant** using **Python, Streamlit, LangChain, LangGraph, and Google Gemini** to automate office tasks through natural language interactions.
- Designed and implemented an intelligent workflow with **LangGraph**, enabling **intent detection, task routing, state management, and seamless integration of LLM-based AI responses**.
- Integrated **Gmail SMTP** and automated **calendar event generation** with `.ics` file support, enabling users to send emails and create events compatible with Google Calendar, Microsoft Outlook, and Apple Calendar.
- Built a scalable conversational AI application by integrating **LangChain**, **Google Gemini API**, and an interactive **Streamlit** interface, providing an intuitive user experience and efficient workflow automation.

Insurance Fraud Detection System, Link

- Developed a machine learning solution to identify potentially fraudulent insurance claims using classification algorithms and predictive analytics.
- Built and evaluated multiple machine learning models, including **Random Forest** and **XGBoost**, using industry-standard evaluation metrics such as Precision, Recall, F1-Score, and ROC-AUC.
- Delivered an intelligent fraud detection model capable of supporting data-driven decision-making by improving claim verification efficiency and reducing false positives.

Car Sales Dashboard | Power BI, Link

- Designed dynamic dashboards with **DAX measures, KPIs, slicers, drill-through reports, and Power Query transformations** to enable real-time business analysis and decision-making.
- Performed data cleaning, transformation, and modeling to create an optimized data model for accurate reporting and improved dashboard performance.
- Delivered actionable insights on sales trends, product performance, and revenue growth through visually compelling reports and interactive data visualizations.

SKILLS

Programming & Libraries	:	Python, SQL, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, PyTorch, Git
Machine Learning	:	Regression, Classification, Feature engineering, Model evaluation, Hyperparameter tuning, Clustering
Deep Learning	:	TensorFlow, keras, PyTorch, CNN, RNN
Agentic AI & LLM	:	Agentic AI, Large Language Models (LLMs), LangChain, LangGraph, Prompt Engineering, Google Gemini API, OpenAI API, AI Agents, Tool Calling, Workflow Automation, State Management
Visualization	:	Power BI, Tableau, Matplotlib/Seaborn, Streamlit
NLP	:	NLTK, spaCy, Text Classification, Sentiment Analysis, TF-IDF
Computer Vision	:	OpenCV, Image Processor

EXTRACURRICULAR ACTIVITIES

- Winner, National Level Technical Symposium; Participant, Smart India Hackathon 2023; Forage simulations (GenAI, Data Analytics, Power BI)
